PROFILE

SIJA student at SMK Negeri 1 Cibinong with interest in Front End Development and UI/UX. Experienced in building responsive web interfaces using HTML, CSS, JavaScript, React (JSX), and Laravel. Also familiar with Linux server configuration, networking, and virtualization. Passionate about learning new technologies and developing reliable IT systems

EDUCATION

SMK Negeri 1 Cibinong 2023 – Present
Major: Sistem Informasi Jaringan dan Aplikasi (SIJA)
Relevant Learning Areas:

- Computer Networking
- Linux Server Administration
- System Security
- Virtualization Technology
- Web Development

PROJECT EXPERIENCE

Laravel Clinic Management System

- Developed a web application using Laravel with authentication and CRUD features.
- Managed database for patient and doctor data.

Smart School System Feature Development

- Improved an existing Smart School platform by implementing a Lost and Found module, enabling item reporting and real-time notification broadcasting to students via the LMS system.

Web Portfolio Development Project (Freelance / Joki Project)

- Worked as a Front-End Developer in creating web-based portfolio projects using React.js.
- Developed responsive and interactive user interfaces based on client requirements.
- Collaborated with clients to understand design needs and implemented modern UI/UX practices.
- Performed testing and debugging to ensure optimal performance and user experience.
